

Let's Interview to Visitors

What points of the planetarium do you like?

I feel like I am under
a real starry sky.

I fell asleep because of
a comfortable atmosphere
and curator's explanation.

The shape of the planetarium is cool.

It's interesting that each presentation
has each curator's touch.

I'm surprised that some audiences
came here more than 10 times.

We gathered
opinions from
visitors.

Greatness of Akashi's Planetarium

I'm amazed that this facility has been here
since my parents were small children.

A treasure of Akashi! I'm going to cherish
this planetarium even after my children grow up.

Full of Appealing Points, Municipal Planetarium 天文科学館

Town of the Meridian

Right on the Japan standard time
meridian of 135-degrees east
longitude stands the Akashi Municipal
Planetarium.

Sundials

There are more than 40 sundials
in Akashi City.
Let's try finding them!

Astronomical Observatory Room (16th floor)

This room has a big astronomical
telescope and citizens can closely
observe stars and planets at an
"Astronomical Observation Event."

You can see Saturn,
Jupiter, and galaxies.

Editors' Postscripts

It was lively and enjoyable.
I want to do
the same thing next year.

Akihito
4th Grade

It was fun that I experienced what I cannot
do in everyday life, such as interviewing
many people and listening to the lecture of
Mr. Inoue, the director.

Ai
5th Grade

I was able to clear up what I wanted
to know and what I was questioning
to the level of "I got it!" I would like
to join this project again because
I really enjoyed it.

Atsuko
5th Grade

Yuto
6th Grade

I am happy that I experienced
what I cannot experience in
usual daily life.

Hinata
4th Grade

Stars were amazingly beautiful!
The project was enjoyable and
I could make good friends.

After interviewing various people,
I understood how important
Akashi's planetarium is.
I'm satisfied because I was able to
learn the system of the planetarium
that I had watched many times.

Koki
5th Grade

MiMi
5th Grade

I enjoyed this activity! I'm surprised
that curators are inspecting the
planetarium every day.

I enjoyed everything I did in this
project. For example, I got answers to
my various questions through
interviews and I learned a lot of things.
